Sweet Industries India Pvt Ltd is a reputed Manufacturer and Supplier of a variety of Packaging Materials, which is used for the purpose of industry-level packaging of Food Items, Toiletries and other such materials. The range of products made available by us includes Packaging Wrappers, Packaging Pouches, Printed Packaging Laminate Roll and Anti Fungal Stiffners. We make use of high quality materials for the purpose of manufacturing our range of goods, so as to instill in our products, the qualities of strength and security. We design and manufacture our range of products, keeping in mind the needs of clients.

The company was incepted in the year 1989, with a vision to provide a revolutionary range of products, in terms of quality, efficiency and economic pricing. With a state-of-the-art infrastructural facility based at Sangli in Maharashtra near Mumbai, the company consistently strives to make a mark in the market. The further expansion in capacity was possible by starting our second manufacturing facility at Parwanoo, Himachal Pradesh near Delhi in April 2004. The total installed capacity of both the facilities is 6000 tons per annum. The company has garnered immense appreciation in the industry, under the headship of Mr. Bhavesh Yadava.

Flex Films is totally focussed on the Flexible Packaging business and produces Biaxially Oriented Polyester (BOPET) Films, Biaxially Oriented Polypropylene (BOPP) Films and Cast Polypropylene(CPP) Films. These are supplied as plain, coated or high-barrier metallised films with or without special surface treatment, as required.

Flex Films is part of the India-based UFLEX Group, which is one of the world's leading producers of Flexible Packaging materials and systems. It has annual revenues of around US 1.2 billion and is the world's only fully vertically integrated conglomerate in the Flexible Packaging business. It's products include plain, coated and metallised films, flexible laminates, pouches/bags, holographic materials, multilayer tubes, resins, packaging machines, conversion equipment, inks & coatings, adhesives, rotogravure cylinders and flexographic plates. All products are manufactured in-house in state-of-the-art global scale facilities. The Group's in-depth domain knowledge of every link in the Flexible Packaging value chain enables it to design and deliver optimum end-to-end solutions for almost any Packaging application.

Flex Films has an extensive global manufacturing and marketing footprint. It operates state-of-the art manufacturing facilities in India, Dubai, Mexico, Egypt, Poland and the USA.
